7 WAYS TO BETTER PROTECT YOUR DATA AND DEVICES

UIT Leadership Spotlight: Julia Harrison, Associate Director, Center for High Performance Computing

The Salt Lake City native applied for her first job at the U as a student, and was later offered a position at the University. Since then, she has been recognized for her work in cybersecurity.

Microsoft Power BI Pro licenses available for employee purchase

Power BI Pro licenses are managed and assigned through the Office 365 portal. Once assigned, the Office of Software Licensing will inform users that they can log in to Office 365 and start using the product.

Assessing the university’s new IT governance process: 3 years later

CIO Dave Hales says IT governance allows for better buying decisions on how IT resources are selected, developed, and allocated so they reinforce the university’s mission, strategic goals, and core values, and support IT strategic plans for units and the university.

MathWorks campus agreement renewed through August 31, 2020

For the third year, the Office of Software Licensing has renewed the campus-wide MathWorks MATLAB Total Academic Headcount (T/A) license—a bundle that includes MATLAB, Simulink, and 44 companion products.

Intern Insights: Jason Crandall, Hardware Platform Services

The computer engineering major says that during his IT internship he’s learned there are more ways to solve a problem, but it’s important to work with a team.

ITIL Foundations classes announced for 2019-2020

Each three-day course, held at the Downtown Data Center, will give participants a practical understanding of IT Service Management (ITSM) and processes, in preparation for the ITIL Foundation in Service Management exam.

Java site license gives orgs time to migrate to no-cost alternatives

The U has purchased a 12-month subscription license so system administrators have time to migrate to alternative, no-cost Java products. In the meantime, system administrators should use the support portal to download software and patches.

IT governance roundup

The Teaching and Learning Portfolio (TLP) met on August 13, and the Strategic Information Technology Committee (SITC) met on August 28. The Enterprise Web Advisory Council (EWAC) will meet September 12, the IT Architecture and New Technology Committee (ANTC) will meet September 23, TLP will meet September 26, and SITC will meet October 19.
